c-Abl (Phospho-Tyr412) Antibody Blocking Peptide

#51125

Catalog Number: 51125-1, 51125-2
Amount: 50μg/50μl, 100μg/100μl
Swiss-Prot No. : P00519
Form of Peptide : Peptide in phosphate buffered saline (without Mg^{2+} and Ca^{2+}), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.
Storage: Store at -20℃.
Quality Control: The quality of the peptide was evaluated by reversed-phase HPLC and mass spectrometry
Peptide Information : The synthesized phosphopeptide was derived from human c-Abl around the phosphorylation site of tyrosine 412 (D-T-Y^{P}-T-A).
Specificity: The peptide specifically blocks the signal of c-Abl (phospho-Tyr412) antibody (#11125) completely in IHC.
Applications: IHC: 1:50~1:100
